AMBER MONOLOGUE:

"They don't need to know where I am... I keep the tabs, not the other way... Is she serious? What I do is for the Hawks not Seagulls. Look, all I'm saying is it's not for baby birds. Lol The people I hire travel to different locations delivering packages for me, because I'm too busy to be in all these places at once. So I pay these people to do it for me."
